

Nowadays people work all day long and rarely have spare time to have a rest and to do something they like. But if they have they try to spend it the way they prefer. And there are a lot of possibilities to do it perfectly. People can choose everything from sport to spending a good time in the country according to their desires.

In my opinion, the most active way of spending spare time is going in for sport. You can do sport all the year round because there are a lot of different sports for all seasons. Moreover people can go into extreme sports, which are more exciting. Going into such sports makes you feel that our life doesn't stay still, it moves forward.

Our friends also help us to have a good time. Because they often have interesting ideas of spending free time and it's much better to spend free time with them.

Some people say that theatres are not popular nowadays but I think they are wrong, because a lot of people still enjoy the play of actors and marvelous productions of plays. Theatres help you to become more human.

Reading books, papers and magazines is also a way of spending leisure time. You can read whatever and wherever you want. From magazines and papers you know the latest news in the world of politics, fashion, cooking, and technology.

People all over the world sit at the computers chatting or surfing on Internet all day long. Children spend a lot of free time playing computer games.

But some people prefer to go to a country to breathe fresh air and have a rest or travel somewhere. Traveling becomes more and more popular. People like to visit other places.

As for me I think that the most exciting leisure time spending can be all activities like sport or traveling somewhere with friends because I never feel bored with my friends.

The city where we live gives us a lot of places to go. Day by day the number of places of interest grows. The only thing that is necessary for citizens is fresh air and nature. People need to walk in the parks which become more and more rare. However people always can find a way to spend leisure time. Because our world is full of new interesting and exciting things which every man wants to explore.
